- Notes:
 - VAD can be as short or long as need. Average VADs are between 2-4 pages in length. It is important to provide sufficient detail so that it can truly be used as a guide for the VISTA’s entire year of service.
 - It is normal and expected for changes to occur during the VISTA’s year of service. The VAD is considered to be a living and working document. Significant changes to VAD must be approved by OMEN. Supervisors and VISTAs will be asked to work together to submit updated VADS throughout the service year.
